

Autumn

Once autumn is in full swing we will encourage children to look for signs of autumn, trying lots of different fruits, some science activities around colour and changes. We will spend some time exploring the school grounds (treasure hunts, autumn pictures, memory sticks etc).

Stories

To help celebrate Roald Dahl's birthday we shall spend some time looking at his stories and writing some of our own stories. We will also do a range of activities linking to traditional tales.

Autumn term

All About Me/Homes

Firstly we understand the importance of settling children back into routines. We will ensure all children are settled back into OSC within the first week. We will be talking about themselves and their families. Activities will centre on self-portraits, talking and writing about their family and getting to know each other after a long summer holiday. Children will also spend time discussing different kinds of homes.

Reading, writing and maths activities are encouraged all year round in addition to creative, cooking and outdoor activities. There will also be opportunities throughout the week for children to be active (including dancing and learning how to play tennis).

Events

We will also spend time looking at Bonfire Night, Halloween, and Christmas. Activities could include chalk drawings, bonfire biscuits, salt dough decorations and costume designs.
